Short Description This turn of the century lamp is an excellent example of eglomese, the reverse painting on glass technique of Art Nouveau artist Phillip J. Handel. The glass dome, hand painted on the inside with a profusion of purple, blue and yellow irises, casts a soft muted glow of color and light when lighted. Antiqued bronze-finished metal base. The glass dome is fired in kilns at 1300 degrees fahrenheit, permanently fusing the brilliant colors into the glass 20"H x 14"W.

Precision-ground lens quality and style you can see are two good reasons to choose these sharp-looking Bausch & Lomb's sunglasses. Superior glare control and absorption, UVA and UVB protection, and snug-fitting frames make them a clear winner.
